# Contents to Volume 25

**Vol. 25 No. 1 September 1996**

M. MOULA, J. M. BRUSTET and J. FONTAN / Remote Sensing-Modelisation Approach for Diurnal Estimation of Burnt Biomass in the Central African Republic Savanna 1–19

A. JENOUVRIER, B. COQAURT and M. F. MERIENNE / The $NO_2$ Absorbtion Spectrum. III: The 200–300 nm Region at Ambient Temperature 21–32

S. SOLBERG, C. DYE, N. SCHMIDBAUER, A. HERZOG and R. GEHRIG / Carbonyls and Nonmethane Hydrocarbons at Rural European Sites from the Mediterranean to the Arctic 33–66

J. D. FUENTES, D. WANG, H. H. NEUMANN, T. J. GILLESPIE, G. DEN HARTOG and T. F. DANN / Ambient Biogenic Hydrocarbons and Isoprene Emissions from a Mixed Deciduous Forest 67–95

D. J. COOPER / Estimation of Hydroxyl Radical Concentrations in the Marine Atmospheric Boundary Layer Using a Reactive Atmospheric Tracer 97–113

**Vol. 25 No. 2 October 1996**

C. BOISSARD, B. BONSANG, M. KANAKIDOU and G. LAMBERT / TROPOZ II: Global Distributions and Budgets of Methane and Light Hydrocarbons 115–148

JOAN D. WILLEY, ROBERT J. KIEBER and RICHARD D. LANCASTER / Coastal Rainwater Hydrogen Peroxide: Concentration and Deposition 149–165

OLIVER WILD, OLIVER V. RATTIGAN, RODERIC L. JONES, JOHN A. PYLE and R. ANTHONY COX / Two-Dimensional Modelling of Some CFC Replacement Compounds 167–199

LORETO DONOSO, RODRIGO ROMERO, ALBERTO RONDÓN, EMMANUAL FERNANDEZ, PEDRO OYOLA and EUGENIO SANHUEZA / Natural and Anthropogenic $C_2$ to $C_6$ Hydrocarbons in the Central-Eastern Venezuelan Atmosphere During the Rainy Season 201–214

S. J. REID, G. VAUGHAN, A. R. W. MARSH and H. G. J. SMIT / Accuracy of Ozonesonde Measurements in the Troposphere 215–226

*Erratum*:

Tuomo A. Pakkanen, Veli-Matti Kerminen *et al.* / Distribution of Nitrate over Sea-Salt and Soil-Derived Particles (*J. Atmos. Chem.* 24 (1996), 189–205) 227

**Vol. 25 No. 3 November 1996**

M. PIRES, H. VAN DEN BERGH and M. J. ROSSI / The Heterogeneous Formation of $N_2O$ over Bulk Condensed Phases in the Presence of $SO_2$ at High Humidities 229–250

J. DIPPELL and W. JAESCHKE / A Comparison between Natural and Anthropogenic Emissions of the Reduced Sulfur Compounds $H_2S$, COS, and $CS_2$ in a Tropical Industrialized Region 251–270

HAN VAN DOP and MAARTEN KROL / Changing Trends in Tropospheric Methane and Carbon Monoxide: A Sensitivity Analysis of the OH-Radical 271–288

A. C. VANDAELE, C. HERMANS, P. C. SIMON, M. VAN ROOZENDAEL, J. M. GUILMOT, M. CARLEER and R. COLIN 289–305

G. P. AYERS, J. M. CAINEY, H. GRANEK and C. LECK / Dimethylsulfide Oxidation and the Ratio of Methanesulfonate to Non Sea-Salt Sulfate in the Marine Aerosol 307–325
